

LAWRENCE ABU-JABER

GRADUATE JUNIOR SOFTWARE DEVELOPER

 uk.linkedin.com/in/lawrence-abu-jaber  labujaber1.github.io
 lawrenceabujaber@gmail.com  Cambridgeshire, UK

PROFILE STATEMENT

As a dedicated computer science graduate having made a career change, I am keen to learn and collaborate on projects that bring a positive effect to a business. Can bring value to your company having an established work ethic and transferable skills gained from previous employment. I have experience developing desktop tools that proved their value in a time saving and organisational context for use in the last year of my studies.

PERSONAL PROJECTS

github.com/labujaber1/LitRevResourceMVP

Conceptualised and constructed a C# .NET Core desktop application to store and organise resources, including resource notes, to be used and referenced in assignments. Uses SQL Server and MVP design.

github.com/labujaber1/NWConfigScriptor

Designed and implemented a C# .NET Core desktop application to create configuration scripts, update configuration files, and backup/restore configuration files on a directly connected router and in GNS3. Split into three decoupled parts, with the first being able to use with Packet-Tracer.

EDUCATION

BSc (Hons) Applied Computer Science | Anglia Ruskin University @College of West Anglia

2020 – 2023

AWARDED 1ST CLASS HONOURS DEGREE

Level 3 Computer Science | ARU @College of West Anglia

2019 – 2020

AWARDED DISTINCTION

CORE SKILLS

Main programming languages: C# (.NET Core), Java and Python. For web development: HTML, CSS, Bootstrap, and JavaScript where SQLite3 and Python were also used within Django. Created databases with MySQL, SQL, and SQLite. Networking was practiced and demonstrated on stacked cisco routers, switches, VMware and within Packet Tracer. Also used Matlab in image processing, while Visio, Project, UML designer, and Git were used for software development where Agile development was practiced in group projects.

EMPLOYMENT HISTORY

Team Leader and GA | Tesco Plc

2004 – 2019 TEAM-LEADER (NIGHTS)

Supported department managers and directed a team on their behalf to complete nightly targets.

- Collaborated with other team leaders to complete department objectives and reaffirm the continued value of the role in the business.
- Implemented staff training strategies and compliance with periodical service, health and hygiene, and fire safety company training.
- Instigated personal support for the warehouse team by taking in deliveries, delivering stock to and from filling teams, and prepare shop floor in time for 7am trading.
- Persistently analysed and re-sited fast-moving items to exceed sales beyond its shelf capacity.
- Ensured staff rotas and payroll attendance reports were completed thoroughly and on-time to reduce colleague wage discrepancies.

GA – Replenish, present working area, and organise returns. Additionally coordinated with the stock-control department to drive accurate item system levels for improved customer availability.
