OBJECTIVE

Changing career path having recently graduated with a BSc (Hons) in computer science and working towards software development to be part of projects that deliver tools to people who need them.

EDUCATION

BSc Applied Computer Science | Anglia Ruskin University @College of West Anglia

2020 - 2023

Covered 18 modules with majority graded over 70, resulting in an expected 2.1+ final grade.

Programming mainly used C#. Java and Python. Web programming used HTML, CSS, Bootstrap, JavaScript, SQLite3, and Python (in Django). Databases used MySQL, SQL, and SQLite. Networking practiced on cisco routers, switches and within Packet Tracer.

Level 3 Computer Science | Anglia Ruskin University @College of West Anglia

2019 – 2020 GRADE: DISTINCTION

PERSONAL PROJECTS

C# .NET desktop application to store and organise resources, including notes, to be used and referenced in assignments. Uses SQL Server and MVP design (Found at github.com/labujaber1/LitRevResourceMVP)

C# .NET desktop application to create configuration scripts, update configuration files, and backup/restore configuration files on a directly connected router and in GNS3. Can be used with packet tracer in a minimal capacity (github.com/labujaber1/NWConfigScriptor).

EMPLOYMENT HISTORY

Team Leader and GA | Tesco Plc

2004 - 2019

Team Leader (nights)- Supported department managers and lead a team on their behalf to complete nightly targets.

- Provided on the spot staff training and all quarterly legal training such as service, health and hygiene, and fire safety.
- Supported administrative duties including staff rotas and payroll attendance reports.
- Supported warehouse by taking in deliveries, delivering stock to and from staff, and clearing shop ready for trading.
- Supported other team leaders to complete their department objectives.
- Performed general assistant duties in all areas of the department and provide support to other departments.

GA (nights)- Replenish stock levels, present stock, and organise returns. Additional tasks involved working with the stock-control department to control stock levels.
